4 New Features:

4.1 ICD-10 Code Changes System Scope

The ICD-10 code changes affect both the medical and behavioral health codes that are available for selection in a youth's record in CYBER.   The following is a recap of the number of changes that will be made for FY2022 effective 10/1/2021. Please be aware that CMS updated codes in January 2021 in addition to the code changes being updated for October of 2021. The below covers the January 2021 Code changes as well as the October 2021 code changes.

Headers
 22737 headers in icd10cm_order_2021jan.txt
 22776 headers in icd10cm_order_2022.txt
    46 additions
     7 deletions
     7 revisions
 of which
     7 revisions to both long and short titles
     0 revisions to long title only
     0 revisions to short title only

Codes
 72621 codes in icd10cm_order_2021jan.txt
 72748 codes in icd10cm_order_2022.txt
   159 additions
    32 deletions
    20 revisions
 of which

20 revisions to both long and short titles
0 revisions to long title only
0 revisions to short title only

The ICD 10 Code changes apply to the following areas of CYBER where an ICD 10 Code can be entered in the Diagnosis section of the following:
- Youth's Facesheet
- Needs Assessment
- BPS Assessment
- CAT Assessment
- BHH Nursing Assessments
- OOH Assessment
- CMO/UCM Treatment Plans
- IIC BA Treatment Plans
- IIH Treatment Plans
- MRSS Treatment Plans
- OOH Treatment Plans
- Substance Use Treatment Plans
- UM Forms
- Claims/1500 Forms

4.2 Assumptions
- All other ICD-10 Codes will remain unchanged
- ICD 10 Codes are not included in the authorizations created in CYBER
- Any revised medical code where only the description has changed will display the new description in a youth's record for both newly added and historic diagnoses
- Any deleted medical code will be marked as inactive
  - The inactive code and description will still display in a youth's record if it was previously entered
  - The inactive code and description will no longer be available in the "Search Diagnosis Screen".
- Any deleted behavioral health code will be marked as inactive
  - The inactive code and description will still display in a youth's record if it was previously entered
  - The inactive codes and description will no longer be available for selection
- All codes must be included under ICD-10, unless specified in the BRS that codes are BH(Behavioral health) or BH+PH(Behavioral health+Physical health). Do not make changes to the existing codes in CYBER if they are designated as BH or BH+PH
- Behavioral Health codes will receive the BH Specifier as indicated in Section 3.2
- When the system converted from DSM IV and ICD 9 to DSM V and ICD 10 in 2015, the State did not want a crosswalk between DSM V Diagnosis Codes and ICD 10 Codes. Since the ICD 10 Codes are not an exact match to DSM V diagnosis codes, one cannot determine if a "non billable" code is cross walked to a DSM V Diagnosis, so all codes (including Header codes) must be loaded into CYBER. The Clinician making the DSM V diagnosis determines the correct ICD 10 code, so do not disable the non -billable ([ValidFor_HIPAA_Submission_Code] = 0) codes in CYBER.

- ICD-10 cm_order_2022 file will be used to upload, set to inactive, revise and delete codes in CYBER- this is a complete list of all codes, including headers for FY 2022.
- Any codes not in CYBER, not indicated icd10cm_order_addenda file but indicated on icd10cm_order file will be uploaded into CYBER.

5 Enhancements

No additional enhancements in this release

6 Defect Fixes

No defect fixes in this release.

6 Change Log:
