

## Quality Improvement Committee(s) Participation

PerformCare is committed to providing superior, innovative solutions in behavioral health, developmental and intellectual disabilities, substance use services and integrated health to the youth, families and caregivers of the State of New Jersey. The Quality Improvement Program has evolved to include external stakeholders representing providers, families and youth in addition to our core Division of Children’s System of Care (CSOC) and PerformCare staff.

We currently have targeted committees that focus on Utilization Management and Outcomes; these committees provide innovative solutions, analyze performance, recommend and implement best practices in the delivery of care and services. (Examples include development and implementation of Practice Guidelines, Provider Decision Support Tools, and Care Coordination Strategies across the continuum)

***Our mission is for stakeholders to partner with PerformCare to ensure that the strengths and needs of the children, youth, and families are upheld as driving elements of the Children's System of Care.***

The Quality Improvement Committees meet a minimum of four (4) times to a maximum of ten (10) times a year at PerformCare's Robbinsville, NJ, office. By establishing relationships in which stakeholders and PerformCare work together, we combine and strengthen our voices to ensure that the System of Care fulfills its commitment to provide families access to "the right care at the right time."

We welcome your participation, ideas and input. If you are interested in participating, please provide your contact information below, and fax to **1-877-736-9166, Attention: Quality Department.**
